

Document scanning and distribution for workgroup productivity

eCopy™ ShareScan® Essentials™

With ShareScan Essentials, office workers can use their multifunction peripherals (MFP) to quickly and securely scan paper documents and distribute electronic copies as PDF files, increasing workgroup productivity through improved access to information. It offers scanning to e-mail, fax, network folders, and eCopy Desktop™. In addition, ShareScan Essential's platform architecture opens unlimited opportunities for integration with any business application through a variety of application integration capabilities.

ShareScan Essentials helps organizations save time, reduce costs and increase business results through an automated solution that securely puts paper documents directly into their electronic workflows.

Connect your MFP to your organization's e-mail for easy to use, secure distribution of paper-based information.

**Actual MFP touch screen graphical user interface varies depending on MFP device.*

What's included in ShareScan Essentials

- **ShareScan** connects your MFP to your organization's e-mail and other enterprise applications for easy to use, secure distribution of paper-based information.
- **eCopy Desktop** PC software provides an intuitive interface that enables users to retrieve, combine and edit original-quality scanned documents at their desktop.
- **eCopy Connectors and Services** link eCopy-enabled devices with software applications to give users the ability to scan directly to those applications. ShareScan Essentials includes connectors that enable scanning directly to:
 - Microsoft® Exchange™
 - Lotus Notes
 - Mail via SMTP
 - eCopy Desktop™
 - Fax via Exchange/Notes
 - Fax via Print Drivers
 - Network locations including folders, FTP and user Home Directories

Additional Connectors are available separately for document management and cost recovery applications.
